

Name: _____

Class: _____

Date: _____

Name the following molecules using IUPAC nomenclature:

- Question 1: p-ethyltoluene
- Question 2: 5,5,5-trichloro-1-pentene
- Question 3: 2-pentyne
- Question 4: 3,5-dimethyl-1-hexene
- Question 5: 2-butyne
- Question 6: 6,6-dichloro-1-hexyne
- Question 7: 2-methyl-2-butene
- Question 8: o-ethylpropylbenzene
- Question 9: butylbenzene
- Question 10: 2-methyl-1-heptene
- Question 11: 4-methyl-2-heptyne
- Question 12: ethene
- Question 13: 2-ethyl-1-butene
- Question 14: p-methylbenzaldehyde
- Question 15: m-methylbenzoic acid
- Question 16: 2,2-dibromo-3-hexyne
- Question 17: 4-methyl-1-hexene
- Question 18: 2-methyl-2-heptene
- Question 19: o-methylbenzoic acid
- Question 20: ethylbenzene
- Question 21: p-methylaniline
- Question 22: p-chloriodobenzene
- Question 23: 4-methyl-3-heptene
- Question 24: 3-methyl-1-pentyne
- Question 25: 1-heptyne
