

Name: _____

Class: _____

Date: _____

Name the following molecules using IUPAC nomenclature:

- Question 1: 5-bromo-1-chloro-2-pentyne
- Question 2: 3,3-dimethyl-1-hexene
- Question 3: 4,4-dichloro-1-butyne
- Question 4: 2-chloro-2-methyloctane
- Question 5: 1,2-dichloropropane
- Question 6: 3-ethyl-1-pentyne
- Question 7: nitrobenzene
- Question 8: p-chlorobenzaldehyde
- Question 9: 3-methyl-2-hexene
- Question 10: 1,6-dichlorohexane
- Question 11: 3,6-dichlorooctane
- Question 12: 4-chloro-2-phenyl-1-butene
- Question 13: 3,3-dimethyl-1-pentyne
- Question 14: 3-bromo-1-pentene
- Question 15: 2,5-dimethylhexane
- Question 16: ethene
- Question 17: benzoic acid
- Question 18: 4-methyl-2-heptene
- Question 19: 5,5-dichloro-2-hexyne
- Question 20: 3-ethyl-4-methyl-1-pentyne
- Question 21: 2,4-dimethylheptane
- Question 22: 4-ethyl-2-methylheptane
- Question 23: 3-bromo-4-chloro-1-butyne
- Question 24: 6,6-dibromo-2-hexyne
- Question 25: 3-ethyl-3-methylheptane
