

Name: _____

Class: _____

Date: _____

Name the following molecules using IUPAC nomenclature:

- Question 1: p-ethylbenzaldehyde
- Question 2: m-ethylphenol
- Question 3: 3,4-dimethyl-2-hexene
- Question 4: 2,2-dibromo-3-hexyne
- Question 5: 1,4-dichloroheptane
- Question 6: 2-ethyl-1-butene
- Question 7: o-methylbenzoic acid
- Question 8: 2,2,3,3-tetramethylhexane
- Question 9: 2-chloropentane
- Question 10: 4-methyl-2-heptyne
- Question 11: 2,3-dichlorobutane
- Question 12: 3,3-dibromo-1-pentyne
- Question 13: 4-bromo-5-fluoro-1-pentene
- Question 14: 1-phenyl-2-butene
- Question 15: 1-heptene
- Question 16: chloroethene
- Question 17: m-ethylbenzaldehyde
- Question 18: 1-chloro-2,3-dimethylbutane
- Question 19: 3-chloro-3-ethylpentane
- Question 20: nitrobenzene
- Question 21: 1-chloro-2,4-dimethylpentane
- Question 22: 2-methyl-1-butene
- Question 23: 4-bromo-2-chlorotoluene
- Question 24: o-chlorotoluene
- Question 25: 3,4-dimethyl-1-hexyne
